In accordance with the United States Department of Agriculture memo SFSP 13-2011 For-Profit Locations as Meal Sites in the Summer Food Service Program, the state agency may approve a for-profit site if all of the following criteria are met:

- The sites must be operated under the sponsorship of an eligible public or private nonprofit service institution;
- The sites must operate as open sites or restricted open sites;
- The sites must be in an area in which at least 50 percent of the children are from households that are eligible for free or reduced-price school meals;
- The sites must make meals available to all children in the area and must serve meals to children on a first come, first served basis; and
- The sites must serve all meals at no charge.

An example of an eligible site is an apartment complex located in a needy area hosting an open site.

I certify that the for-profit site will not benefit financially from participation in the SFSP.

I certify that to the best of my knowledge and belief, this information is true and correct in all respects and records are available to support this statement if requested.
